ABHIJEET PATHAK

Data Analyst — SQL — Power BI — Business Intelligence — Data Visualization

Delhi, India
6283653246 iamabhijeet45@gmail.com GitHub LinkedIn

PROFESSIONAL SUMMARY

Results-driven Data Analyst with strong expertise in SQL, data cleaning, exploratory data analysis (EDA), and dashboard development. Experienced in analyzing structured datasets to generate business insights, track KPIs, measure revenue growth, and support data-driven decision making. Proficient in MySQL, Excel, and Power BI with a solid foundation in Business Intelligence and query optimization.

TECHNICAL SKILLS

Programming & Querying: SQL (Advanced), MySQL
Data Analysis: Data Cleaning, Data Transformation, EDA, Aggregations, Window Functions, CTEs, Subqueries
Data Visualization: Power BI, Excel (Pivot Tables, XLOOKUP, Dashboards, Charts)
Business Concepts: KPI Reporting, Revenue Analysis, Trend Analysis, Customer Segmentation, Business Intelligence
Database Concepts: Schema Design, Data Normalization, Primary & Foreign Keys
Tools: Git, GitHub

PROJECTS

Blinkit Sales Data Analysis — MySQL

- Cleaned and standardized 10,000+ sales records by handling NULL values and improving data consistency
- Performed outlet-wise and city-level revenue analysis using GROUP BY, JOIN operations, and aggregate functions
- Applied Window Functions (RANK, ROW_NUMBER) to identify top-performing products and revenue leaders
- Calculated Monthly Sales Trends, Revenue Growth percentage, and Average Order Value (AOV)
- Created reusable SQL views to support KPI dashboards and structured business reporting

E-Commerce Sales Data Analysis — MySQL

- Analyzed 15,000+ transaction records to evaluate customer behavior and purchasing patterns
- Identified top 20% customers contributing nearly 60% of total revenue using Pareto analysis
- Calculated repeat customer rate and monthly revenue growth using CTEs and subqueries
- Used Window Functions (RANK, DENSE_RANK) for product performance and revenue ranking analysis
- Generated structured analytical reports to support retention strategy and sales performance tracking

EXPERIENCE

Data Analyst — Self Projects

- Developed SQL-based analytical solutions to solve marketing and business intelligence problems
- Automated recurring KPI reports and dashboard workflows for performance monitoring
- Optimized SQL queries to improve execution performance and reporting efficiency

EDUCATION

Chandigarh University 2021 – 2025
Bachelor of Engineering (Computer Science), Chandigarh, India

CERTIFICATIONS

SQL (LeetCode) — SQL for Data Analytics (Great Learning) — MS Excel (Simplilearn)
